FINANCIAL FLIGHT MODE

Your Flight Report

Snapshot: Oct 29, 2026
Next reflection: Nov 28, 2026 · US dollars

47 / 100

Turbulence

An educational signal based on your estimates.

Your next 7 days

Move $10 of unassigned cash into savings on payday.

That lifts your savings rate to 5.2%.

Starter Kit section: Savings Tracker + Dashboard

Follow through

Do now: Set your next emergency fund target and confirm where that money will sit.

This payday: Move a repeatable amount toward that target.

This month: Keep the contribution going every payday this month.

Your 30 day mission: Grow your emergency fund by one repeatable contribution each payday this month.

Your instrument readouts

Cash left	**$10**
Savings rate	**5.0%**
Debt vs monthly income	**1.00x**
Runway goal reached	**10.0%**
Invested so far	**$0**
Extra to debt	**$250**

What is working

- Your income covers your plan with $10 unassigned.

- Your debt of $6,000 is 1.00 times your monthly income.
- You put $250 toward debt above minimums each month.

What needs attention

- Your emergency runway is under 25% of your goal. Building it protects every other part of the plan.
- Your emergency savings cover 0.0 months of needs.
- You have not started investing yet.

Your input snapshot

Your focus: Stable · Save more consistently. Your focus can guide the plan when supported by your numbers. It does not change your score.

Monthly amounts are flows. Current balances and your emergency goal are totals. Estimates are okay; review them before acting.

Monthly take home income	**$6,000.00**
Monthly needs including minimum debt payments	**$4,240.00**
Monthly wants	**$1,200.00**
Monthly cash savings contributions	**$300.00**
Monthly extra debt payments	**$250.00**
Current debt balance excluding mortgage	**$6,000.00**
Current emergency cash saved	**$200.00**
Emergency cash goal	**$2,000.00**
Current long term investments	**$0.00**

Reflect on Nov 28, 2026

What action did I take?

What changed in my cash, savings or debt?

What will I adjust before the next payday?
